BioGuard®			

WELCOME

BioGuard's professional swimming pool and spa care products have a long history of performance and dependability. Customers look to BioGuard and our expert dealers as the trusted resource for exceptional water and reliable advice.

More than ever, our products and proven system approach combined with an upgrade to our water analysis software, provides a compelling reason for people to visit and stay with you. Look to BioGuard to support that value with tools and programs that ensure customer satisfaction and loyalty.

We are also capitalizing on last year's successful introduction of Pool Complete™ with Pool Opening Complete™, a new product that is applied at spring opening to prepare pools for the swim season. In addition, our new Instant Stabilizer 100 provides a more convenient way of adding stabilizer to pool water.

Being ahead of the game is what you expect from BioGuard.

SYSTEMS

SYSTEMS

Our customized pool care systems give your customers beautiful water and take just minutes per week. BioGuard® offers several different systems for simple, expert pool care to fit any customer's needs.

CLEANERS

ONCE-A-WEEK 3-STEP PROGRAM

The once-a-week 3-Step program is ideal for:

- Pools up to 25,000 gallons
- Above-ground and in-ground pools
- Pump circulation 10 to 12 hours per day
- Proper water flow through skimmers, with adequate skimmer basket area
- Any surface type

Recommended for pool owners who:

- Like a simple system with the convenience of skimmer chlorination
- Prefer a chlorinated pool

STEP 1 Sanitize to clean the water

Keep pool water sanitized with Smart SilkGuard® Sticks containing SilkGuard® Technology.

- Extra long-lasting chlorine sanitizer that dissolves slowly and all but stops dissolving when pump is off
- Kills and prevents bacteria, while maintaining proper chlorine levels
- Easy to apply to skimmer, no special feeder required.
- Apply once a week

52316BIO

30 lb.

STEP 2 Shock to remove contaminants

Keep pool water clear with Smart Shock®

- Keeps water sparkling clear
- Multi-functional product shocks, oxidizes, buffers and clarifies
- Kills and prevents bacteria growth
- Unique blue algae-fighting crystals kill algae
- No need to mix or pre-dissolve
- Apply once a week

22947BIO

1 lb.

STEP 3 Algae killing and prevention

Prevent algae before it starts with Back Up® 2

- Highly effective formula prevents wide variety of algae growth
- Stable in sunlight and will not evaporate
- Activity increases as water temperature rises (and you need protection the most)
- Will not affect pH levels
- No need to mix or pre-dissolve
- Non-staining
- Apply once a week

23050BIO

1 qt.

3-STEP PROGRAM

The 3-Step program is ideal for:

- *Pools of any size or surface type*
- *Proper water flow through skimmers or chlorinator*
- *Pump circulation 8 or more hours per day*

Recommended for pool owners who:

- *Consistently have heavy bather loads*
- *May also apply chlorine via floating chlorinator*

STEP 1 Sanitize to clean the water

SilkGuard® tabs and SilkGuard® sticks enhanced with SilkGuard® Technology keep pool water sanitized and velvety smooth. They are available in 3" tabs, 1" tabs and sticks.

- Kill bacteria
- Control algae
- Slow-dissolving sanitizers
- Contain SunShield® Technology so that chlorine is protected from sunlight for long-lasting sanitation of pool water
- Test water and add as needed

52326BIO

30 lb.

STEP 2 Shock to remove contaminants

Keep pool water clear with Smart Shock®

- Keeps water sparkling clear
- Multi-functional product shocks, oxidizes, buffers and clarifies
- Kills and prevents bacteria growth
- Unique blue algae-fighting crystals kill algae
- No need to mix or pre-dissolve
- Apply once a week

22947BIO

1 lb.

STEP 3 Algae killing and prevention

Prevent algae before it starts with Back Up® 2

- Highly effective formula prevents wide variety of algae growth
- Stable in sunlight and will not evaporate
- Activity increases as water temperature rises (and you need protection the most)
- Will not affect pH levels
- No need to mix or pre-dissolve
- Non-staining
- Apply once a week

23050BIO

1 qt.

SOFTSWIM[®] PROGRAM

- *Less than 25,000 gallons*
- *Excellent circulation, using a sand filter*
- *Pump operates at least 12 hours per day*
- *Any surface type, but especially great for vinyl-lined pool*

Recommended for pool owners who:

- *Want a simple system*
- *Prefer an alternative to chlorination*
- *Are new to pool ownership*
- *Are good about following directions*

Not the best system for pools that:

- *Have a prior history of problems such as algae, poor water clarity, etc*

IMPORTANT

Catalase produced by water mold can impact a pool's ability to maintain SoftSwim C levels. Use Oxysheen® to destroy catalase.

STEP A Prevent algae growth

Using an effective algicide is an important first step in your pool care regimen for inhibiting and controlling the growth of algae.

- Add it to your pool every two weeks to keep algae in check.
- Withstands evaporation from direct sunlight
- Works harder in high temperatures
- Supports the effectiveness of other SoftSwim products when used on a regular basis

23002B10

1 qt.

STEP B Sanitize to kill bacteria

This is a step you don't want to miss when keeping your pool primed for good times in the sun.

- Stops the spread of disease via pool water by effectively killing & controlling bacteria
- Contains biguanide—the key ingredient that makes this program so different than chlorine-based sanitizers
- Gentle on eyes, skin & hair
- UV-protected

22852B10

½ gal.

STEP C Oxidize and clarify for sparkling clear water

Use SoftSwim C on a monthly basis to maintain clarity. Our powerful clarifier and oxidizer helps you keep the sparkle in your water longer by removing contaminants that can cause cloudiness.

- Formulated to last 30% longer in the water
- Clears your pool water by eliminating body oils, perspiration and other undesirable contaminants that can affect clarity and sparkle
- Built-in stabilizer ensures that SoftSwim C's dual action chemicals won't burn off easily in hot weather

22851B10

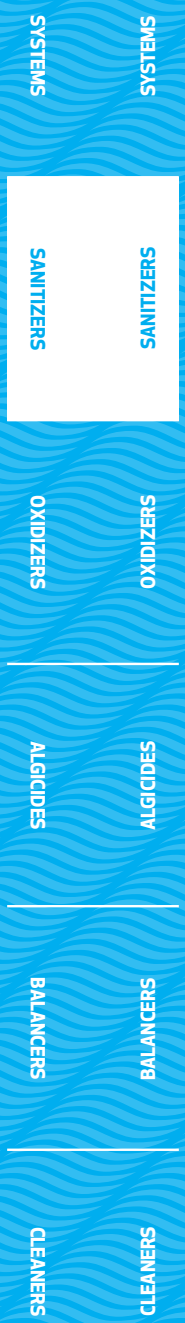

1 gal.

POOL CARE

SANITIZERS

Sanitizers are the main ingredient of basic pool maintenance. They keep pool water clear and protected from bacteria and each BioGuard® pool care system is based on a sanitizer to provide this important protection.

STEP 1

THE SILKGUARD ADVANTAGE

The best BioGuard sanitizers feature SilkGuard technology and are found ONLY at BioGuard dealers

Makes water soft and smooth

Prevents scaling, protects against corrosion and metal staining

Protects pool equipment for longer life

52316BIO
30 lb.

SMART SILKGUARD® STICKS

93.9% Trichloro-s-Triazinetrione

- This unique compressed blue sanitizer stick dissolves much slower when the pump is turned off, using our smart technology. They last twice as long in the skimmer (skimmer application only).
- With SunShield® technology protects chlorine from sunlight.
- Can be used with the Once-A-Week 3 Step BioGuard Care System
- Stabilized chlorine

SilkGuard® Tabs/Sticks

94.05% Trichloro-Triazinetrione

- Blue, compressed, slow-dissolving 3" tab, 1" tabs or sticks offer steady release of free chlorine residual that won't cloud water
- Provides soft and smooth water
- Floater, skimmer and chlorinator use
- Can be used with the 3-Step BioGuard Care System
- Stabilized chlorine

52336BIO

25 lb.

Power Chlor®

Proprietary blend of ingredients

- Patented, easy-to-use, multi-functional granular sanitizer and shock
- Excellent alternative to calcium-hypochlorite products
- Broadcast use (white plaster pools only) or skimmer use
- Can be used with the 3-Step BioGuard Care System
- Stabilized chlorine

52218BIO

22.5 lb.

Brominating Tablets

96% BromochloroDimethylHydantoin (BCDMH)

- Ideal sanitizer for indoor pools with low chemical orders, highly effective for above and in-ground pools
- Excellent alternative to chlorinating products
- Applied through a brominator

22027BIO

25 lb.

Super Soluble

99% Sodium Dichloro-s-Triazinetrione

- Quick-dissolving granules
- Excellent for sanitizing small vinyl-lined pools
- Broadcast application use only
- Can be used with the 3-Step BioGuard Care System
- Stabilized chlorine

52203BIO

25 lb.

CLC® 3

57.8% Calcium Hypochlorite

- Multi-purpose granular chlorine, no pre-dissolving needed
- Provides residual source of chlorine
- Works as a super chlorination treatment
- Meets NFPA criteria for a Class 1 oxidizer
- Non-stabilized chlorine

52217BIO

25 lb.

CLC® Classic

68% Calcium Hypochlorite

- Multi-functional granular sanitizer and shock
- Suitable for use in all pool types
- Does not lower pH or destroy total alkalinity
- Non-stabilized chlorine

22864BIO

25 lb.

[complete sanitizer list >](#)

Lithium Hypochlorite

29% Lithium Hypochlorite

- Soluble and fast-dissolving
- Works well for hard water areas with high calcium
- Broadcast application
- Non-stabilized chlorine

52227BIO

25 lb.

BioGuard Basic Tab

99% Trichloro-s-Triazinetrione

- White, compressed 3" trichlor tablets
- For general cleaning and protection
- Floater, skimmer and chlorinator use
- Can be used with the 3-Step BioGuard Care System
- Stabilized chlorine

OXIDIZERS

OXIDIZERS

Pool water oxidizers help rid pools of some undesirable compounds (chloramines). They restore water clarity and remove chemical odors.

(The oxidizers in this section are not for use in SoftSwim® pools.)

SMART SHOCK®

Proprietary formulation of ingredients

- BioGuard's best to shock, oxidize, buffer and clarify your water
- Contains blue algae killing crystals
- Treat and swim in as soon as 15 minutes
- Can be used with the 3-Step or Once-A-Week BioGuard Care System

22947BIO
1 lb.

Easy Shock & Swim®

58.2% Dichloro-s-Triazinetrione and other proprietary compounds

- Multi-purpose shock provides oxidation, clarification, buffering and flocculation
- Restores water sparkle
- For all pool types, works especially well with above ground models
- Can be used with the 3-Step or Once-A-Week BioGuard Care System

22825BIO

2 lb.

BurnOut® 73

73% Calcium Hypochlorite

- Quick dissolving granular chlorine shock
- Suitable for use in all pool types
- Restores sparkle and clarity to pool water
- Can be used with the 3-Step or Once-A-Week BioGuard Care System

22862BIO

5 lb.

BurnOut® 35

29% Lithium Hypochlorite

- Ideal for hard water areas as it doesn't affect calcium hardness
- Destroys organic contaminants and won't cloud water
- Fast dissolving
- Can be used with the 3-Step or Once-A-Week BioGuard Care System

22835BIO

1 lb.

BurnOut® 3

57.8% Calcium Hypochlorite

- Quick dissolving granular chlorine shock
- Suitable for vinyl and plaster pools
- Destroys organic contaminants
- Can be used with the 3-Step or Once-A-Week BioGuard Care System

22808BIO

1 lb.

Oxysheen®

42.8% Potassium Peroxymonopersulfate

- Fast acting shock that destroys contaminants
- Ideal shock for indoor pools because of the low chemical odor
- Treat and swim in as soon as 15 minutes
- Can be used with the 3-Step or Once-A-Week BioGuard Care System

STEP 3

BACK UP® 2

50% Quaternary Ammonium-compound

- Broad spectrum formula is highly effective at inhibiting and killing algae
- Powerful wetting agents stop algae where it starts
- Use weekly as Step 3 in the BioGuard Care System

23050BIO
1 qt.

Algae All 60®

60% Polyquat

- Excellent for use with pools with attached spas or fountains
- Works in chlorinated or brominated pools
- Prevents all types of algae
- Can be used with the 3-Step or Once-A-Week BioGuard Care System

23060BIO

1 qt.

Optimizer Plus®

100% Sodium Tetraborate Pentahydrate

- Enhanced water quality, softens water and prevents algae
- Works with all sanitizers: chlorine, bromine and biguanide
- Reduces cloudiness in water
- Can be used with the 3-Step or Once-A-Week BioGuard Care System

23515BIO

8 lb.

Banish®

Chelated Copper

- Our best formula, highly effective, kills ALL types of algae
- Fast acting, non-foaming, producing results in 24 hours
- Multi-purpose—use in chlorine or bromine pools with all surfaces or filter types
- Contains a patented chelant that prevents copper staining

23500BIO

1 qt.

Spot Kill®

99% Sodium Dichloro-s-Triazinetrione

- Especially effective on black algae growth
- Near neutral pH does not affect water balance
- Highly soluble and compatible with most pool surfaces

23107BIO

2 lb.

Spot Kill® WP

99% Trichloro-s-Triazinetrione

- Especially effective on black algae growth
- Highly soluble and compatible with most pool surfaces
- For white plaster pools only (do not use on any bleachable surfaces)

23112BIO

2 lb.

Algicide 28-40

40% quaternary ammonium compound

- Works with either chlorinated or brominated systems
- Excellent mid-priced algicide for commercial applications

23043BIO

1 qt.

BALANCERS

BALANCERS

Products to balance swimming pool water are a critical part of pool care for your customers.

INSTANT STABILIZER 100

Monosodium Cyanurate Monohydrate

- Prevents free chlorine residual loss due to sunlight
- Quick dissolving
- Easy to apply
- Improves efficiency of chlorine generators

23217BIO
1 gal.

Balance Pak® 100

100% Sodium Hydrogen Carbonate

- For raising total alkalinity
- Helps prevent pH change
- Prevents corrosion and vinyl liner wrinkling due to improper pH
- Dissolves quickly when added directly to water

23408BIO

4 lb.

Balance Pak® 200

100% Sodium Carbonate

- For raising pH level
- Protects pool equipment from corrosion, plaster etching and wrinkling of liners due to low pH
- Prevents eye irritation due to low pH

23356BIO

6 lb.

Balance Pak® 300

97% Calcium Chloride

- For raising calcium hardness levels
- Unique formulation resulting in a quick dissolving and less cloudy application
- Protects pool equipment from corrosion, plaster etching and wrinkling of liners

23437BIO

5.5 lb.

Stabilizer 100

100% Cyanuric Acid

- Prevents free chlorine residual loss due to sunlight
- Reduces maintenance costs and chlorinating product consumption
- Skimmer use for outdoor, chlorinated pools only
- Granular, soluble product

23215BIO

6 lb.

Lo 'N Slo®

93.2% Sodium Bisulfate

- For lowering pH and total alkalinity
- Quick dissolving and easy to measure
- Safer to store, transport and handle than liquid muriatic acid

23306BIO

3 lb.

Pool Magnet® Plus

Chelating Agent

- Prevents and removes stains from iron, copper and manganese
- Eliminates discolored water from metals
- Easy to apply, highly concentrated formula
- Use in conjunction with Sparkle Up® to remove metals from the water

23454BIO

1 qt.

[complete balancer list >](#)

Scale Inhibitor

Sequestering Agent

- *Protects pool equipment from scale build-up and metal stain*
- *Prevents and removes metal stain and scale on pool surfaces*
- *Prevents cloudy water due to high calcium level*
- *For chlorine and bromine treated pools*

Take your pick of ways to restore sparkle to pool water. BioGuard® has a variety of great products to get rid of cloudy water and make it brilliantly clear.

POOL COMPLETE™

- 3-in-1 high intensity weekly formula adds the final touch to any pool program
- Keeps water AMAZINGLY clear
- Prevents build-up around the pool waterline
- Continuously removes phosphate to the filter

23763B10
1 gal.

Pool Tonic®

Proprietary Blend

- Eliminates cloudy, hazy or dull water
- Removes phosphate and other common contaminants
- Dual-action formula treats up to 20,000 gallons
- Great add on for salt pools

23760BIO

1 qt.

Natural Clarifier

Natural Polymer

- Keep your water sparkling and filter working at peak efficiency
- Biodegradable and contains no dye or fragrance
- Works with natural ingredient, Chitosan (crustacean exoskeletons), to capture sediment particles
- Works with all pool surface types and all treatment types

23742BIO

1 qt.

Polysheen® Blue

Specially formulated Polymers

- Highly concentrated water clarifier, no dilution needed
- Fast acting formula that clears cloudy water
- Recommended for weekly use
- For all pool and filter types

23721BIO

1 qt.

Smart Shield™

Pool Water Conservor

- Forms ultra-thin, invisible barrier on pool surface, reducing evaporation
- Conserves pool water and preserves heat
- Regular use extends swim season without the hassle of traditional solar blankets
- Long lasting formula, works up to 30 days after application

23762BIO

1 qt.

PowerFloc™

Non-alum Cationic Coagulant

- Clears excessively cloudy water commonly associated with algae blooms
- Concentrated formula that works quickly
- Particles settle to your pool's bottom for vacuum removal
- The more debris in the water the faster it works

23717BIO

1 qt.

SkimMor®

Mycelx Technology

- Treated with Mycelx® to attack oils, lotions and cosmetics
- Stops debris and scum before it reaches your filter
- Extends the life of the filter
- Easy to use—just slip onto skimmer

21401BIO

5 pack

[complete accessory list >](#)

Natural Result™

Enzyme

- Natural enzyme product that controls odor and waterline buildup
- Improves filtration
- Keeps your pool cleaner longer
- Recommended for once a week use

23718BIO

1 qt.

Sparkle Up®

Cellulose Filtration Aid

- Works with your filter to remove tiny particles of suspended dirt, plaster, dust and more
- Restores water sparkle, keeps water clear
- Aids in removal of copper and iron to prevent metal staining
- For use with all filter types

SALTWATER

SALTWATER

Saltwater pools are favored for their simpler and gentler approach to pool care, but they do have some unique maintenance needs when compared to traditional chlorine pools. BioGuard salt products are designed specifically for saltwater pools and provides everything your customers will need to keep their saltwater sparkling and protect their cell generator equipment and pool surfaces.

SALTSCAPES SCALE DEFENDER

- Formulated specifically for saltwater environments
- Prevents scale from adhering to your pool surfaces
- Increases life of chlorine generator cell
- Use monthly to help ensure a clean and efficient cell

16012BIO
1 qt.

**SaltScapes
Chlorine-Free Shock Oxidizer**

- *Eliminates contaminants without using chlorine*
- *Treats up to 20,000 gallons*
- *Use weekly for clear fresh odor-free water*

16010BIO

2 lb.

**SaltScapes
Sunshield® Stabilizer**

- *Generated chlorine lasts longer to work more efficiently*
- *Dissolves quickly and can be added directly to your pool water*
- *Test and use on a monthly basis or as needed*

16016BIO

6.5 lb.

**SaltScapes
pH Reducer**

- *Combats high pH that results from the saltwater to chlorine conversion process*
- *Lowers pH to ideal range of 7.2-7.6*
- *Protects pool surfaces and equipment from potential corrosion*

16018BIO

9 lb.

**SaltScapes
Cell Cleaner**

- *Strong and highly effective formula*
- *Remove chalky white-calcium scale deposits from cell plates*
- *Works in as little as 15-30 minutes*

16020BIO

1 qt.

**SaltScapes
Algae Remover**

- *Kills all types of algae*
- *Highly effective, patented non-staining algicides*
- *Formulated for saltwater pools of all surfaces and filter types*

16022BIO

1 qt.

Mineral Springs® Beginnings®

- Foundation of Mineral Springs line
- Uses SilkGuard® & SunShield® technology
- Prevents scale from forming
- Makes water soft and gentle

23240BIO

27.9 lb.

Mineral Springs® Renewal®

- Maintains problem-free water, established from beginnings
- Keeps equipment scale free
- Makes water silky smooth
- High purity salt, balancer, clarifier all in one
- Recommended to apply weekly

23241BIO

4 lb.

Mineral Springs® Stain and Scale

- Protects chlorine generator cell and other pool equipment from scale accumulations
- Keeps generator cell working at optimum performance
- Recommended annual use

SOFTSWIM

SOFTSWIM®

SoftSwim® makes water feel wonderfully soft and gentle on skin, eyes and hair. The SoftSwim non-chlorine pool care system is as easy as A, B, C: SoftSwim A (algae preventative), SoftSwim B (sanitizer) and SoftSwim C (clarifier). And since these products are liquid, application is a breeze—no mixing or pre-dissolving. Your customers will keep coming back for this simple, innovative product.

SPAGUARD®

SPAGUARD®

SOFTSWIM® A

- The first step in the SoftSwim program, prevents algae growth
- Withstands evaporation from direct sunlight
- Works harder in higher temperatures
- Apply weekly or every two weeks
- Patented formula

23002B10

SoftSwim® B

- *The second step in the SoftSwim program, sanitizes your pool water*
- *Kills and controls bacteria, using poly-biguanide*
- *Gentle on eyes, skin and hair*
- *Test and use every two weeks or as needed*

22852B10

½ gal.

SoftSwim® C

- *The third and final step in the SoftSwim program, removes contaminants*
- *Clear pool water through the clarifying and oxidizing process*
- *Built-in stabilizer ensures product does not burn off easily in hot weather*
- *Test and use on a monthly basis or as needed*

22851B10

1 gal.

SoftSwim® Filter Cleaner

- *Patented formula that works on filters of pools treated with biguanide*
- *Improves circulation and water clarity*
- *Use with all filter types*
- *Recommended use every four to six weeks*

22859B10

1 qt.

SoftSwim® Filter Aid

- *Dual-purpose product works both as an aid and flocculent*
- *Rapidly clears a cloudy pool*
- *Removes suspended particles in water*
- *Use on an as needed basis*

22854B10

1 lb.

SoftSwim® Stain Control

- *Prevents metals from settling and staining pool surfaces*
- *Use enhances the longevity of SoftSwim C*
- *Use at pool opening and on an as needed basis*

23457B10

1 qt.

SOFTSWIM®

SoftSwim® A	23002BIO	12 x 1 qt.
SoftSwim® B	22852BIO	4 x 1½ gal.
SoftSwim® C	22851BIO	2 x 1 gal.

SPAGUARD®

WELCOME

Your customers want their spa care to be as simple as possible, and they want their dealer to have exactly what they need. SpaGuard® offers a complete spa care line that simplifies, purifies and satisfies.

43201BIO
4 kits/case

Soft Soak®TRIO®

The Soft Soak TRIO Spa Kit is a treatment program that provides 3 months of soft, clean, clear spa water. This easy to use program contains the items listed below, and is ideal for spas between 350 and 450 gallons. Recommended for use with Soft Soak® Brominating Granules or Soft Soak® Chlorinating Granules.

1 Enhancing water softener

- Instantly softens fresh filled water for a soak experience that feels soft on skin
- Use every three months at the beginning of the Soft Soak TRIO cycle.

2 Weekly softener & clarifier

- Eliminates water impurities like lotions, sweat and oils to freshen water
- Use at start-up after Soft Soak TRIO Enhancing Water Softener then repeat weekly.

3 Restoring spa cleanser

- cleans & prepares spa for a fresh start
- *use before draining & refilling*
- Use every three months at the end of the Soft Soak TRIO cycle.

complete TRIO list >

Brominating Granules

- *Simple and easy to use*
- *Powerful granules kill bacteria for clean and clear spa water*
- *Ideal for hot water*

43202BIO

2.25 lb.

Chlorinating Granules

- *Concentrated granules are quick dissolving*
- *Easy to use*
- *pH neutral formula*

43203BIO

SPA SANITIZERS

Brominating Concentrate

- One step, fast dissolving brominating granules
- Organic bromine sanitizes without chlorine order
- Easy to use, no pre-dissolving needed
- Dual-acting as both a sanitizer and oxidizer, eliminates need for two products
- Apply directly to water while the pump is running

42165BIO

6 lb.

Brominating Tablets

- Dissolve slowly and protect continuously
- Organic bromine sanitizes without chlorine order
- Ideal for heavy bather loads and commercial spas
- Apply in a brominator or in a SpaGuard floating dispenser

42122BIO

4.5 lb.

Chlorinating Concentrate

- Fast acting
- Quick dissolving
- Easy to use, no pre-dissolving needed
- Acts as a sanitizer and an oxidizer; no need for two products
- Apply directly to water while the pump is running

42048BIO

5 lb.

Chlorinating Concentrate	42049BIO	12 x 14 oz.

	42165BIO	4 x 6 lb.

SPA OXIDIZERS

Enhanced Shock

58.2% Sodium Dichloro-s-Triazinetrione

- Multipurpose shock with four functions in one: shocks, clarifies, flocculent and pH buffer
- Restores water sparkle
- Removes unpleasant odors
- Treat and soak in as soon as 15 minutes
- Compatible with chlorinated or brominated spas and those using ozone or ionization systems

42238BIO

6 lb.

Spa Shock-Oxidizer

31% Buffered Monopersulfate

- Non-Chlorine oxidizer that destroys organic contaminants
- Quick dissolving shock treatment
- Treat and soak in as soon as 15 minutes
- Does not raise chlorine residual
- Ideal for spas with ionizer unit but can be used with chlorinated or brominated spas
- Easy to use, apply directly to water while the pump is circulating

42545BIO

40 oz.

Enhanced Shock	42234BIO	12 x 2 lb.
	42238BIO	4 x 6 lb.
Spa Shock-Oxidizer	42545BIO	12 x 40 oz.
	42552BIO	4 x 7 lb.

SPA BALANCERS

Spa Sentry™ *

- Introduces a buffering compound, making pH easier to keep in balance
- One easy step
- Controls PH for up to two full months

**Spa Sentry should not be used in spas with plaster finishes or grouting that contains calcium or spas using Soft Soak®.*

42210BIO 1 qt.

pH Increaser

- Raises the pH
- Protects equipment from corrosion due to low pH
- Helps balance water for bather comfort

42240BIO 18 oz.

pH Decreaser

- Lowers the pH
- Protects spa and equipment due to improper pH
- Prevent cloudy water due to high pH
- Helps balance water for bather comfort

42254BIO 22 oz.

Total Alkalinity Increaser

- Helps eliminate "pH bounce" by balancing total alkalinity
- Helps to prevent equipment and surface corrosion and damage
- 1 tbs. per 100 gallons raises total alkalinity 25ppm

42275BIO 2 lb.

Calcium Hardness Increaser

- Prevents corrosion of equipment due to low calcium hardness
- Prevents etching of plaster due to low calcium hardness
- 1 tbs. per 100 gallons increases calcium hardness -25ppm

42258BIO 12 oz.

SPA ACCESSORIES

Water Clarifier

- *Helps clear cloudy water*
- *Does not affect pH*
- *Combines small particles into larger ones for easier filtration*

42420BIO

16 oz.

Anti Foam

- *Quickly eliminates any surface foam caused by undesirable compounds and detergents*
- *For use with all sanitizer types*
- *For use in all spas and hot tubs*

42360BIO

1 pt.

Stain & Scale Control

- *Prevents scale formation and cloudy water due to high calcium levels*
- *Removes some scale buildup on spa surface, preventing damage to surfaces and circulation systems*
- *Removes relatively fresh metal stains from spa surfaces*

42356BIO

1 qt.

Natural Spa Enzyme

- *Helps eliminate oils by breaking them down*
- *Reduces unpleasant odors*
- *Improves water clarity*
- *Reduces scum-line buildup*
- *Helps keep spa water clear*

42532BIO

1 qt.

Water Freshener

- *Eliminates odors in spa and hot tub water, doesn't just cover using a fragrance*
- *Makes spas and hot tubs smell fresh*
- *Works well with any sanitizer, effective with sanitizer residual present*

42370BIO

1 pt.

complete spa accessory list >

Spa System Flush

- Removes unseen build-up in spa plumbing that can impact performance
- Works with all sanitizer systems
- Works with all spa sizes

42422BIO

24 oz.

Filter Cleaner

- Breaks down oils and dirt embedded in filter's fabric
- Helps keep water clear by promoting better filtration
- Easy to use sprayer applicator

42418BIO

1 qt.

Off The Wall® Surface Cleaner

- Removes scale and hard water deposits along the water line
- Compatible with spa water chemistry
- Non-abrasive
- Suitable for all spa surfaces
- Can be used to clean entire surface of spa when unit is drained

23610BIO
